## Luna and Luz

Luna, the smallest of the 2 sisters at 7 pounds is like a kitten but with the maturity of a 5 year old. She's a spirited, adventurous, beautiful cat that like the moon, you can gaze at for hours. She loves the great outdoors, her cat hammock and to be pet, preferably on her gorgeous face.

Luz, weighs eight pounds, is the Purrrrrfect "Lap Cat". She loves a warm lap, affection and time to relax. She's a super soft, (like Mink), beautiful, loving cat that will soon be the "light" of your day! Just ease on back and enjoy this cuddly cat for hours and let your troubles purrrr away.

Healthy Cats are Happy Cats. Both Luna & Luz are Spayed and have had all of their veterinary shots, as well as a full blood test, as early as last week. They are purrrfectly healthy and are ready for a loving home.
