Grey Boy

Loving Grey Boy Needing a Home

This nice medium haired grey cat comes from a colony of cats where I feed. He is neutered. I flea treat him. His back story is he got a fox tail in his eye. I got him to a vet to remove the fox tail. Normally when I come to feed, he is right there waiting for me, rubbing on my legs or tripping me 😊. He is friendly does a few head shakes excited to see me. I did not return him to the colony afraid he could get another fox tail in his eye. I would keep him

however doing rescue I have too many of my own cats. I am looking to home him to a loving family. He is adjusting well to being a house cat now. He may take a little time to get to know you once he does, he will want love and pets. Please call me if interested in him. Rebecca 916 716-200Eight.
