

COURTESY LISTING

RINGO

Ringo is a friendly and affectionate dog. He is mellow and relaxed indoors, but bounding with energy when you take him out to play. He is definitely fun to play with, whether it be playing fetch or yanking on a pull-toy. It would be best for Ringo if there are no other dogs or cats in his family.

House-Trained

Health:

Rabies vaccination

Lepto vaccination

Current on monthly heartworm protection

Neutered

Sadly, Ringo does not trust children and behaves defensively around them. If handled well, I believe he can easily learn to trust a child or children in the family if they are mature enough to treat him properly. He is most comfortable with adults.
