

COURTESY LISTING DUKE

His name is Duke and we volunteered to take him in for a fellow airman under the premise of a short term foster. We have been unable to locate or communicate with his previous owners since April. We live on Beale AFB base housing which has a two pet limit. We are not able to keep him long term and my leadership has left us no options other than to have him gone by Thursday or solid arrangements made. Most rescues we have contacted have a wait list or are completely full. We don't want him to be euthanized. We have his records from the previous owner.

Thank you,
Robert Avery
