## Sugar

Attention all Chihuahua enthusiasts! Meet Sugar, the epitome of petite perfection weighing in at a dainty 5 lbs. This deer head cream beauty with adorable white markings is ready to melt hearts with her cuddly charm. Sugar thrives on affection, basking in the warmth of a welcoming lap and relishing every moment of attention lavished upon her. Having graced her current home for eight delightful years, Sugar is now seeking a new haven where she can continue her reign as the ultimate lap princess.

Ideal for someone who adores little Chihuahuas, Sugar is happiest when nestled indoors with her beloved humans. Her tiny stature calls for frequent outdoor potty breaks, making a home with easy access to the great outdoors a perfect fit. Sugar also appreciates the comforting presence of her people and may experience some anxiety when left alone, making a household with someone always around a dream come true for her.

Sugar comes complete with her own wardrobe of tiny clothes, a travel backpack for on-the-go adventures, and her cherished dog bowls. Rest assured, she has received top-notch medical care at Motherlode Veterinary in Grass Valley, ensuring she's in tip-top shape for her next chapter.

If you're ready to welcome this precious bundle of joy into your life and provide her with the love and attention she deserves, please reach out to Camille at [camillemarie1233@gmail.com](mailto:camillemarie1233@gmail.com). Let's make Sugar's transition to her forever home a sweet success!
