

# COURTESY LISTING

## Koa

Ok friends! It's time to share and help us find this beautiful girl the perfect home! She spent most of her life kenneled, and now it's her turn to have a family to call her own.

Koa is approximately 2 years old, spayed, vaccinated and microchipped. She's been heartworm tested and was negative and is currently on heartworm preventative along with flea and tick preventative. She gets along great with other dogs.. she loves to chase after Shasta when he's going to get the ball . She walks easily on a leash and comes when she's called (usually to my whistle). She absolutely loves to play in the creek or any water. She's basically an all-around fun girl! 😊 She loves everyone she meets and is happy to go for a walk, run, or just chill on the couch. The one thing she does not like is being left alone for long periods. (understandable given that she was kenneled the majority of her life. She was adopted once and somehow got beat up. We're not exactly sure what happened, we're just glad to have her back safe with us!) Let's find Koa at home. She really deserves it!!

If you might be interested in Koa, please shoot me a text or give me a call. Lisa
