

# COURTESY LISTING PUPPIES

Female puppies. Mom is Border Collie/Husky and dad is a mystery.

This is little girl; she's the runt of the litter but she's not too much smaller than her sisters. She is so very sweet and super smart. She has a great temperament and loves her older sister cat. They were all born May 22nd but she was born a whopping four and half hours after the other pups! She doesn't use her voice too much like her sister Macy and she's very gentle with my babies.
