

COURTESY LISTING

Gita

Hello my name is Sanji Lebovitz, and a dog I have been taking care of for the last year needs to have a good home. I am already taking my dog of 17yrs old, Karma, to Hawaii with me. My neighbors apparently moved and left Gita, the dog I have been caring for, with them. She showed up at my door a year ago and have been feeding her and caring for her since then. She is a very independent dog and I have come a long way in taming her. I live in north San Juan and she has free range seeing I have no gates or fences. She has a best friend of a male dog that they spend as much time together as possible. The male dog, Brambles, has free range as well and almost feels like my dog as well. I just try as hard as possible not feeding him so he goes home eventually. Gita is very

loving to me and loves to be pet and cared for. She sits and gives me her paw before she eats now. We go on walks and she won't run off if I call her back. We have been swimming at Oregon Creek together, and I can tell she never went swimming before. She is probably 3-4 years old now, however I'm not an expert at telling her age. Her and Brambles are very playful and she is an excellent guard dog. She is a bit nocturnal seeing that she likes to protect our area from bears and likes to avoid the heat all day. She loves going in the car with me, however the only time I've seen her be aggressive is when people come up to the car to say hi to me, and she will be extra protective of her car. She does have a thing where she shows her teeth meeting new people that come to my house. It seems though that she would never bite, it's only a show of teeth. She soon gets to be comfortable though after her meeting with new people. Recently a friend brought over his young children and she was perfectly calm and loving to the children. I am pretty certain she has been neutered and I feel as though maybe she has a chip to show whether she had her shots. This I need to look into.

I am moving to Hawaii probably by mid September. I will also be posting flyers around my area seeing that I would love to have her stay local in her known environment.

My phone number is (530)263-6811
