

COURTESY LISTING

PANDA-MOO

My daughters and I are having an emergency rehoming situation for us and our family friend Panda-Moo. We are currently in a safe house that allows him. Our next stop will not allow us to have dogs. We have 1.5 months to re home or foster Panda.

On October 7,2024 I helped his mom birth him and pull the sac (her first and only litter). He is the sweetest most well tempered dog. He loves attention and to play outside. He is not too much of a barker but will whine if his friends are around and he can't see them. He is potty trained and sits on command. He comes when called and is very intelligent. Panda-Moo is a Border Collie/Aussie Shepherd, and Bernese MountainDog.
